

### Presenter Information:

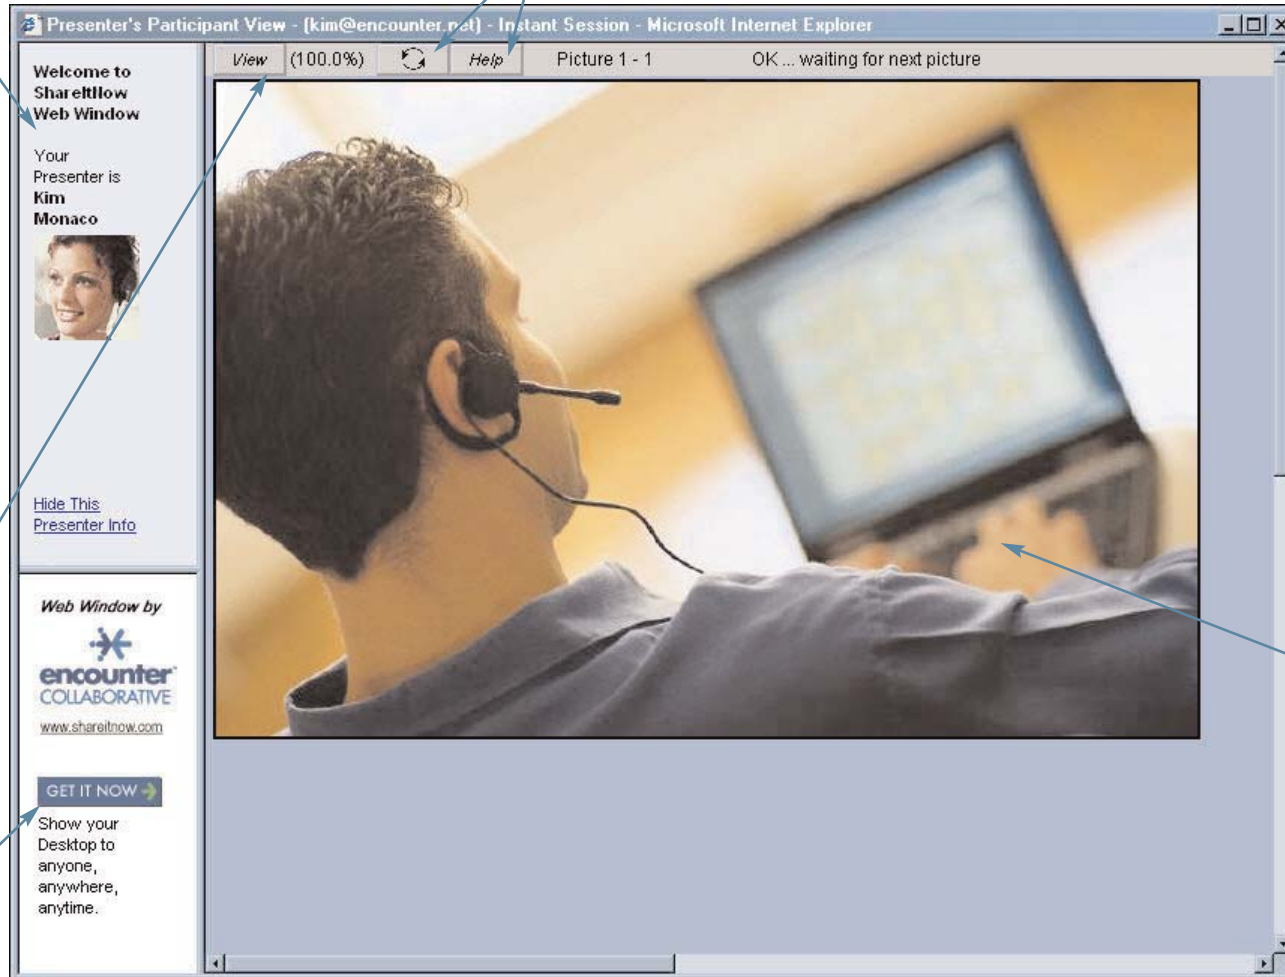

This section shows Presenter and meeting information.

### Refresh and Online Help

### Zoom Function:

Click the 'view' button to change the size of the viewing area.

Sign yourself up as a ShareItNow™ Presenter here.

### Viewing Area:

This is what the Presenter is showing you from their desktop.

## Presenter Information

This window displays information about the session. It displays the presenter's name and email address. It may also display the presenter's picture or company logo. The presenter may choose to display audio information for the session if audio is included.

## Viewing Area

This is the large area in the middle of the browser window. This is where you will see images directly from the presenter's desktop. During the session, everything that the presenter places inside the presenter frame is transmitted to the viewer window for participants to see. The participant can use scroll bars to see the entire image if it's too large for their screen or use the Zoom functions to size the window.

## View Function

This button allows the participant to resize the viewer window. They can choose from several predefined zoom rates.

## Refresh Button

The refresh button works just like the browser's refresh button and will refresh the screen and re-display the image.

## Help Button

Clicking on the help button takes you to the online help system.

## Closing the Participant Viewer

To leave the session, click on the in the upper right-hand corner of the browser title bar.
